# Jeans

"Jeans" it's versatile set for kids room or room of teenagers. Original implementation of this model was worked out by Italian designers especially for "Lubidom". "Jeans" facades its a combination of bright decors of laminated chipboard: rich yellow and exclusive colouration of jeans with various pictures in jeans style on it. Collection consists of about 20 different modules, among which there are very unusual new elements, implemented only in

# Aurora

With the help of modern technologies, great experience and best traditions of furniture making, italian designers realized new 17 modules collection "Aurora". Visual charm and elegance of kids room is reached owing to facades decorated with patina, light goldish silkscreen drawings and venetian handles which are imitating an antique bronze.
